

Spectator Guide

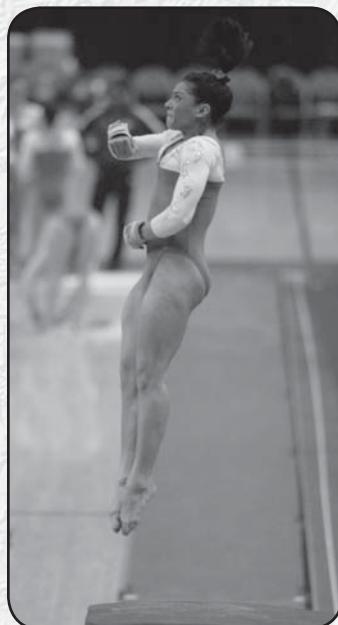

Team Competition

Collegiate team competition involves the totaling of the five best individual scores on each event to arrive at a team score. Each team can put up a maximum of six competitors on each event. Two judges per event evaluate each athlete's performance. The judges' scores are then averaged to arrive at a final mark. A perfect team score is 200.

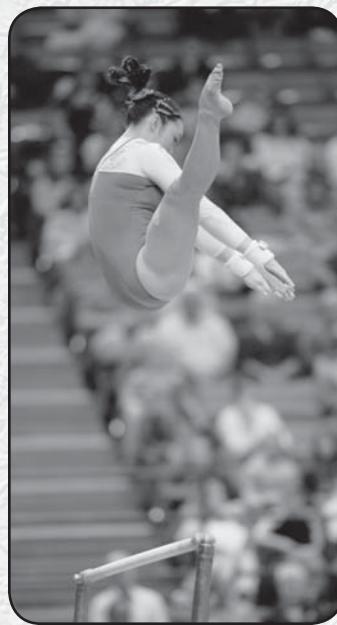

In a dual meet, the host team begins on vault, followed by the uneven bars, balance beam and floor exercise. The visitor flip-flops with the host, starting on bars, and moving onto the vault, floor exercise and finishing on the balance beam. If there are more than two teams competing, each team will start on a different event, following the home order, vault, uneven bars, balance beam and floor exercise.

Vault

The object is to get as high as possible off the horse, to stay up in the air long enough to flip and/or twist and to land far from the horse in perfect control. A proper, motionless landing is called "sticking" the vault. Vaults are divided into four categories: handsprings, forward saltos, backward saltos and vaults from a round-off. Each vault has a maximum value, usually from 8.8 to 10.0. The vault is judged in the areas of pre-flight (board to horse), repulsion (push off the horse), after-flight (distance and height), and landing. Gymnasts may only perform one vault. At the individual event finals at the NCAA Championships, gymnasts must perform two different vaults, which will be averaged for a final score.

Vault - Tasha Schwikert

Bars - Anna Li

Uneven Bars

This event requires tremendous upper body strength. A smooth routine with circling moves, handstands, flips, release and regrasp moves, kips and flight from bar to bar will usually score well. Ten or more skills are required. Special requirements include a minimum of two bar changes, two different flight elements and a minimum C level dismount.

Balance Beam

The balance beam is 16 feet long, four feet high and a mere four inches wide. Beam routines combine dance elements such as turns, leaps and jumps with acrobatic skills such as cartwheels, somersaults in the air, handsprings and rolls. Performing on the beam requires precise movement and intense concentration throughout the entire routine, which lasts from 70 to 90 seconds. Special requirements on beam include a dance or acro/dance combination, a full turn, a large leap or jump requiring a split, an element close to the beam and an acrobatic series with two or more flight elements.

Floor Exercise

Floor exercise is an artistic event that combines powerful tumbling with beautiful dance. The selection of music and choreography showcase each gymnast's individual style. Two tumbling passes are required, with three different saltos required within the exercise. The combination of creative dance and daring acrobatics makes floor exercise one of the most enjoyable events.

UCLA Gymnastics Legacy Endowment

UCLA Gymnastics has established a legacy of athletic and academic excellence. The Bruins have captured five NCAA titles, including four of the past seven national championships, and 16 NCAA Regional titles. Since 1987, UCLA has won 12 Pac-10 Conference titles. For six of the last seven years, UCLA gymnasts have earned the highest team GPA in the athletic department and posted a higher cumulative GPA than the average UCLA student.

Their accomplishments on the competition floor, in the classroom and in life set a standard of excellence unmatched by any other NCAA Gymnastics team in the last decade.

The **UCLA GYMNASTICS LEGACY ENDOWMENT CAMPAIGN** was established to assist in continuing this legacy of Bruin excellence. The goal of this campaign is to fully endow all 12 of our gymnastics scholarships. Endowments are \$150,000 each and can be paid out over a five-year period.

UCLA Athletics would like to thank our contributing endowment members for their generous support of our five fully endowed scholarships.

Bruin 10.0 Club

The Bruin 10.0 Club is the official support group of the UCLA Gymnastics team. One of the most visible things the Bruin 10.0 Club has done was establish a tailgating tradition at the Bruin home meets, three hours prior to the event between Pauley Pavilion and the Central Ticket Office. The Bruin 10.0 Club provides the food, fun and festivities before every home meet.

In addition, the Bruin 10.0 has provided the main support for UCLA Gymnastics' fundraising efforts. Most of the money brought in from Bruin 10.0 endeavors goes to the continuous purchase of gymnastics equipment. The primary goal with the

Bruin 10.0 funds is to ensure that the Bruin student-athletes have the safest training environment that the latest and best equipment can provide.

Along with updating the team's training equipment, last season's Bruin 10.0 donations went to completing the separate set of equipment that is kept in the Pauley Pavilion tunnel for home meets, and to the purchase of a video replay system in the training gym.

For more information or to offer assistance at the tailgates, please email the new Bruin 10.0 President, Sue Berlin, at hsma@aol.com.

Dr. Gene Block

Chancellor • Stanford '70 • 1st Year

Dr. Gene Block became chancellor of UCLA in summer 2007, taking the helm of a world-class institution comprising 37,000 students and 27,000 faculty and staff, with an annual budget of \$3.6 billion. As chief executive officer, he oversees all aspects of the university's three-part mission of education, research and service.

Previously, Dr. Block served as vice president and provost of the University of Virginia, where he also held the Alumni Council Thomas Jefferson Professorship in Biology. With academic expertise in biological clocks, he conducts research on the neurobiology of circadian rhythms in higher organisms, leading a research lab funded by the National Institutes of Health (NIH). From 1991 to 2002, he directed the National Science Foundation's Science and Technology Center for Biological Timing. In 1997, he was named a fellow of the American Association for the Advancement of Science. He

has invented a number of devices and holds a patent for a non-contact respiratory monitor for the prevention of Sudden Infant Death Syndrome.

Dr. Block joined the faculty of the University of Virginia in 1978 as an assistant professor of biology. He served as vice provost for research from 1993 to 1998 and then as vice president for research and public service until his appointment as vice president and provost in 2001. He also headed an NIH graduate training program aimed at increasing the number of scientists from underrepresented groups. In 1998, he received the Commonwealth of Virginia's Outstanding Public Service Award for his work with Virginia's business community.

A native of Monticello, NY, Dr. Block holds a bachelor's degree in psychology from Stanford University and a master's and Ph.D. in psychology from the University of Oregon. He also completed a postdoctoral fellowship at Stanford, working with the late Colin Pittendrigh, "the father of biological timing" and distinguished biologist and former Stanford President, Donald Kennedy. Dr. Block and his wife, Carol, have two adult children.

Dan Guerrero

Athletic Director • UCLA '74 • 6th Year

In just five years as UCLA's Director of Athletics, Daniel G. Guerrero has boldly placed his imprint on the school's athletic program.

Guerrero, one of the most respected and talented administrators in intercollegiate athletics, has rapidly placed his mark on the program as the director of athletics at UCLA. He is currently serving as the chair of the NCAA's Division I Men's Basketball Academic Enhancement Group. He is also a member of the NCAA Division I Men's Basketball Committee.

In June, he was selected 2007 NACDA Division I West Region Athletic Director of the Year.

In his first five years, Guerrero has clearly established a pattern of "image and substance" that few in his profession can match. UCLA stands as the No. 1 University in the nation for NCAA Team Championships (100) won, a number that continues to grow under his direction. UCLA teams have won 14 NCAA championships (the highest total in the nation in that span), finished second 12 times and have had an additional 17 Top Five finishes. A staggering 94 teams (of 115 possible) have qualified for NCAA post-season competition, and the football team has appeared in five bowl games. The program has also won 32 conference championships in 14 different sports, produced 286 All-Americans and featured four Honda Award winners, including the 2003-04 Collegiate Woman Athlete of the Year.

This past year, UCLA won an NCAA championship in women's water polo, the school's 100th NCAA team title, and placed second in men's soccer and women's tennis, third in women's golf, tied for third in men's basketball, women's soccer and women's volleyball, fourth in women's gymnastics, fifth in women's outdoor track and field, tied for fifth in men's tennis, seventh in men's golf and women's indoor track and field, ninth in men's outdoor track and field, tied for ninth in baseball and 15th in women's swimming. UCLA played in its fifth straight bowl game in football, placed 14th in the NCAA in women's rowing's varsity eight and won four league titles.

Guerrero, 55, came to UCLA in 2002 from UC Irvine, where he had served as UCI's fifth Director of Athletics for 10 years. Prior to arriving at UC Irvine, he was the Athletic Director for five years at Cal State Dominguez Hills (1988-92). He received his Bachelor's degree from UCLA in 1974 and played second base in the Bruin baseball program for four years. Born on November 10, 1951 in Tucson, AZ, he is married to the former Anne Marie Aniello and they have two daughters: Jenna and Katie.

Petrina Long

Senior Associate Athletic Director/SWA • California '77 • 4th Year

Petrina Long enters her fourth year as senior associate athletic director/senior women's administrator at UCLA, having joined the staff in June of 2004. Long has oversight responsibility for several sports, including women's basketball, men's and women's volleyball, softball and women's gymnastics, as well as several administrative areas, among them academic services, compliance, equity issues, and governmental relations.

Long came to UCLA from UC Irvine, where she served as senior associate athletic director/senior women's administrator since 1993, working closely with Bruin athletic director Dan Guerrero. She also served as interim athletic director following Guerrero's departure to UCLA.

In addition to her UCLA commitments, Long is also extensively involved in a number of areas relating to intercollegiate athletics. She currently holds a chair on the NCAA Academics and Eligibility Cabinet (AEC) Subcommittee on Recruiting, and serves on the NCAA Men's Volleyball Committee. On the conference level, Long is an administrative liaison to several sports, including women's volleyball, cross-country, track & field, and men's soccer (MPSF). She is also a past chair of the Senior Women's Administrative Committee (SWAC).

During her 11 years at UCI, Long supervised several of the university's 23 sports teams, as well as academic and student support, compliance and sports medicine. In addition, she was active in numerous groups on campus and in the community. Her campus activities included serving on the Chancellor's Advisory Committee on Intercollegiate Athletics (CACIA), and chairing the Diversity Development Program Board for two years. She was a board member of the Irvine Chamber of Commerce for several years and has been a school volunteer in the city of Tustin. Long was a member of the Big West Council and previously chaired the Big West Compliance Committee for two years. She also served on the Executive Committee of both the Big West Conference and the Mountain Pacific Sports Federation.

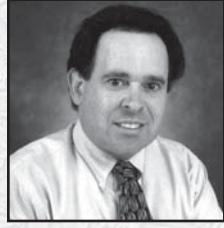

Prior to her tenure at UCI, Long spent nine years at Columbia University, serving in both the associate and assistant athletic director positions. She was the Assistant Athletic Director for Academic Affairs at Southern Methodist University from 1982-84 and was an advisor for student-athletes at the University of California, Berkeley, from 1979-82.

Long received her B.A. degree in Anthropology from the University of California, Berkeley, in 1977 and her Master's degree in Anthropology from Columbia in 1992. She and her husband, Sam McCamey, have a daughter, Samantha, and two sons, Monte and Traland.
